# SECUPRO 625

NO. 625098

Original size

#### Excellent ergonomics

We have rarely produced a cutting tool before that fits so perfectly into the heavy users hand as the SECUPRO 625. The long and smooth lever, the round shape of the handle and the soft grip at the back of the knife – it's more than worth testing it!

#### Robust and balanced

You can see and feel that the handle is made of high-quality aluminium. Its robust construction goes hand in hand with an optimal weight distribution. Consequently, there's almost no risk of weakening for tool and user.

#### Specialist usage

The hook blade is ideal for any kind of floor covering, but also for many other uses. The blade can be changed in a few easy steps – by lifting the blade change button and pressing the lever.

#### 2-cutting edge blade

Before you have to change the quality blade, you can turn it around once. This doubles the usage time of the blade - and reduces the energy you use up. Because your product cuts like new again.

#### Safe along the line

While you rely on the blade retraction at the front part of the handle, there's another safety feature built in for even more protection. You can lock the lever and thus avoid that the blade is released unintentionally.

**Long lever. Long blade. Long-lasting enjoyment. With hook blade.**

The SECUPRO 625 is at the forefront of our ergonomic squeeze-grip knives. Its aspiration is very clear: premium. Because it offers all that professional users require: an aluminium handle, an easy and smooth lever to release the blade, a large cutting depth combined with a very high safety due to the fully automatic blade retraction and a comfortable blade change. All in all, you will know that you have a high-end cutting tool in your hands.

**PRODUCT FEATURES**

**Technical features**

- |   |  |
|---|--|
|  Very high safety             |  Tool-less blade change               |

**Certificates and awards**

**Application**

**Safety technology**

**Fully automatic blade retraction – a very high degree of safety**

The fully automatic blade retraction of the SECUPRO 625 guarantees a very high degree of safety from cut injuries. The blade withdraws into the handle immediately after leaving the material being cut. Even when the lever is still being squeezed.

# THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.

## SECUPRO 625
