

PIG® Water Absorbent Mat Pad in Dispenser Box

WTR006 15" W x 19" L, 50 pads per box

The mat to keep in stock for water cleanup caused by wet weather, ceiling leaks, pipe bursts, cleanouts, washdowns, maintenance or other water spills.

- Mat pads absorb nearly one quart of water and can be used to quickly clean up spills, puddles and leaks from wet weather; dispenser box makes it easy to carry and store your mat
- Designed and engineered to pull in large volumes of water on contact; superfast wicking helps you quickly eliminate pools and puddles to prevent damage and injuries
- Wring and re-use during a single water spill clean-up, then dispose; wringable mats mean less hassle, less waste and more savings
- The best mat to have on hand when heavy rains, snow or ice intrude your facility; soaks up water that comes in through open windows, porous footers, cracked foundations, roof leaks and seepage under doors
- Helps you deal with water from cleanouts, system breakdowns, burst or leaking pipes, broken hoses, leaking hot water tanks or malfunctioning equipment
- Soaks up excess washdown water in food service, food processing and other critical areas
- Use when sump pumps or wet-vacs are not necessary or available; creates less waste than wipers or loose absorbents
- Cleaner, more efficient method than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mold and odors
- Tough, spunbond top layer holds mat together when it's fully saturated, so it won't rip or fall apart when you pick it up
- Easy-tear perforations let you take only what you need, so you use fewer mats and save money
- Made with 60% pre-consumer recycled cellulose
