

UltraNeo 414

DESCRIPTION AND GENERAL PROPERTIES

- **Material** Neoprene
- **Length (cm)** 45.5
- **Thickness (mm)** 0.75
- **Wrist** Straight cuff
- **Colour/Color** Black
- **Interior finish** Chlorinated
- **Exterior finish** Embossed texture
- **Size / EAN** 9 10
- **Packaging** 1 pair/bag - 12 pairs/carton
- **Complementary information** Guaranteed without silicone

MAPA[®]
PROFESSIONAL

SPECIFIC ADVANTAGES

- Broad chemical resistance (acids, aliphatic solvents, solvent mixtures), increased by the thickness of the material
- Good grip, due to embossed texture
- Easy to pull on and off, due to chlorinated interior
- Previous name: Chem-Ply 414

MAIN FIELDS OF USE

Mechanical industry

- Surface treatment of metals (acids)
- Etching / degreasing

Chemical industry

- Site pollution control
- Handling on alkylation units
- Handling and transporting drums of chemical products
- Galvanoplasty

INSTRUCTIONS FOR USE

Instructions for use

- It is recommended to check that the gloves are suitable for the intended use, because the conditions of use at workplace may differ from the "CE"-type tests.
- It is not recommended for persons sensitized to dithiocarbamates to use these gloves.
- Put the gloves on dry, clean hands.
- Do not use the gloves in contact with a chemical for a duration in excess of the measured breakthrough time. Refer to the website www.mapa-pro.com or contact the Technical Customer Service - MAPA PROFESSIONNEL (stc.mapaspontex@mapaspontex.fr) in order to know this breakthrough time. Use 2 pairs alternatively when in long duration contact with a solvent.
- Turn the cuff end down in order to prevent a hazardous chemical from dripping onto the arm.

Storage conditions

- Store the gloves in their original packaging at a temperature not below 5°C.

Laundering conditions

- Before taking off the gloves, clean them as appropriate :
- in use with paints, pigments and inks : wipe with a clean cloth dampened with a suitable solvent, and rub over with a dry cloth
- in use with a solvent (diluent, etc...) : rub over with a dry cloth
- in use with acids or alkalies : thoroughly rinse the gloves under running water, and rub over with a dry cloth
- Caution : using the gloves or submitting them to cleaning or laundering process which are not specifically recommended can alter their performance levels.

Drying conditions

- Ensure the inside of the gloves is dry before putting them on again.

LEGISLATION

This product is not classified hazardous according to the regulation (EC) n°1272/2008 of the European Parliament and of the Council. This product does not contain more than 0.1 % of substance of very high concern (SVHC) or any substance included in the annex XVII of the regulation n° 1907/2006 of the European Parliament and of the Council (REACH).
